The nace is almost beyond belief, 50,000 men ag killed or wounded, of which 40,000 are strians. 6,000 prisoners were captured the allies, together with 75 cannon and flags. This is by far the most annguinabaltle of which there is a record. The ked men of Austria and France are being hered to still bloodier fields, no doubt, The American "Manifesto."

lo-day we give the Address of the Comtee of the Hamilton County American sociation, to the " conservative men of State." While we do not sympathize h them in some of the objects they are ing at, we deem it right that they should o a hearing before the people. But a y small number of presses in the State devoted to the support and premulgaa of the peculiar doctrines of the Amerin party; and as the Ramblican seems

We may say that this is peculiarly the Age Resolutions. In the first place, resolutions st nothing, and then they have the effect at least bringing the author, and presiat and secretary of a meeting into notice "thoroughgoing folks, meaning what they r, and determined to perform what they olve to do. BLONDIN NOWHERE !- The fet local of the Cleveland Democrat takes off the account of Monz Blondin's " rope walk " over Ni-RUFUS P. RANNEY, of Cayahoga County, agara in the following rich style, Those who have read the particulars in the papers will appreciate it. But we will not detain the reader a moment :

On the morning of the Fourth the local On the morning of the Fourth the local editor of a prominent evening daily paper in Buffalo accomplished a feat which places Mons. Blendin's tight rope act at Magara quite in the shade. He crossed Main street, the principal street in Buffalo, on a cross-walk without stepping off! When it is known that the aforesaid local had been employed in seeing the old Fourth of July out and the new Fourth of July in, some idea may be formed of the magnitude of the undertaking. The cross-walk chosen for his daring feat leads from Thomas's Seloon to the Terrapia Lunch. The side-walks on each side of Main street were growded with spectators, by far the greater number being on the side on which the Terrapin is loaded, they being sustained and soothed by an unfaltering trust, in his ability to perform it, and his willingness to treat when he got over. Numerous Star Spangled Banners were flying in the air, and numerous bands were playing the air of the Star-Spangled Banner, while a Calithumpian band were putting on airs generally. At about eight o'clock the local emerged from Thomas's Saloss Saloon, and was greeted with immense ap-plause by the crowd on the other side, who were impatient to have him come across and ireat. It was really a treat to come across such enthusiastic fellows.

Before attempting to cross be performed numerous worderful fests, such as selling numerous wonderful fe-ts, such as selling the time of day, walking a crack in the eidewalk seeing a hole through a ladder, &c.—
The cross walk was about thirty feet in length, and in order to make it steady he had taken about thirty glasses of Buck Beer as guys, thus affording one guy to each foot, without mentioning the "Guya" on the opposite sidewalk who were standing by in expectation of a drink. Like many other performers he was dressed in tichts, havperformers he was dressed in tights, hav-ing been tight for two weeks before in prep-aration for his feet. Only once did he bewhen his eagle eye took in the immense concourse on the other side waiting for him to treat. Scorning a balance pole he stends to treat. Scorning a balance pole he stends ied himself a moment against a lamp pust, and theh amid the breathless attention of the spectators commenced his terrible walk. When about half way across he produced a ball of twine from his pooket, and retaining one end threw the ball to the other side, where it was caught dexterously by Mr. Terrapin, (author of Terrapin Lunch) who does seem a little strange that there uld have been so great a change effected this regard since 1854, when the natives i control of nearly easy press in the intry now called Republican. The Joursi of this city was, if we may except the low. He was caught up at once on the shoulders of the frantic multitude, headed by Col. Lum Smith, and as he disappeared in the Terrapin be was heard to exclaim, with a wink so intense it gave one side of his face the appearance of a horrid paralys-

The Gazette insists that Judge Ranney is a rabbid anti-fugitive law fanatic, in the face of the most sclemn denial, Does the Gazette also insist that the moon is made of green cheese? One is just as probable as the other; if any difference, a little more so.
